

Why is it incorrect to call *seminar*?
Because it is *saltminar* Ha Ha!

Drive thru this class FAST!

Last Presentation @ B.E. Hoo Hoo!

Avocado! Did you call me?
My name is not saltminar!

What will be surprises in this presentation?
He He ...

EE439 Final Presentation

Final Round Rules

- Everything should be *settled* in final round.
- This presentation is made to create memorable experiences. The *content will not stay long*, but what would remain is memory!
- Enjoy my upcoming activity, esp *designed for the last semester*!

To celebrate every hero, this presentation will be exceptionally entertaining!

Looking back ...

1) Proposal presentation → birds-eye views of my research ideas

Tools : Python notebook

2) Seminar discussion → mock-up example of EPU index

Tools: Python notebook (text mining)

3) Result presentation → detailed walkthrough of my process

Tools: R Markdown

Tired of my presentation yet?

Looking back ...

1) Proposal presentation → birds-eye views of my research ideas

Tools : Python notebook

2) Result presentation → detailed walkthrough of my process

Tools: R Markdown

3) Seminar discussion → mock-up example of EPU index

Tools: Python notebook (text mining)

4) Today presentation → Combine both overview and walkthrough

Tools: Pencil and paper (really?)

Feel sleepy?

Are you worried about future after B.E.?

Try this “accurate” fortune teller!

https://gooddee.github.io/Destiny_BE/

Feel sleepy?

Why is seminar presentation similar to gacha?

Because seminar work requires luck!

salt

Telling my story from scratch

It is a feature, not a bug!

MY journey from first-year to fourth-year

First-Year: Interested in stock trading & finance

Theoretical Economics research must be my seminal paper.

Studying Ph.D. in Econ is a good choice.

Coding, CS: what??

Slide presentation must be highly academic

MY journey from first-year to fourth-year

Fourth-Year: Switch to **data science and computer science** instead

Empirical paper is enough!

Master in Data Science and **no Econ anymore!**

Coding, CS: my main tool in this course.

It is not slide presentation. ***It is you watching my movie!***

Pure Vanilla Cookie

Thank you... All of you.
I will cherish the memories we have made together on our journey.

Should we end here?

Have you heard “Five Minutes University”?

I believe that most of lectures and this class will be faded away soon!

So, I designed this presentation to be aesthetically pleasing, rather than highly academic!

-- This presentation should end here: think about what you will do after B.E. instead.
